

The Central La Regional Port is seeking qualification statements for Engineering services.

Please send us your qualifications/professional statements as we have various projects from time to time and would like to have your qualifications on hand for future reference.

Please consider the following in your response:

- 1) demonstrated experience managing costs and adhering to timelines for reticent and successful completion of projects and tasks
- 2) availability, accessibility, and responsiveness
- 3) demonstrated performance on similar projects and sufficient diversity for meeting broader expectations in future projects
- 4) willingness and capacity to engage with regulatory authorities and the demands and/or reasonable expectations of public sector investment partners
- 5) availability of complementary and/or other architectural and engineering services directly and/or by subcontracting for these, such as surveys, geotechnical studies, and similar project demands
- 6) effective communication with entity leadership to include capacities for delivering advice on interpretation of contract documents and related development of necessary bid package or subcontracting documents and, also, adequately participate in public engagement process, as directed.

Please respond via email to [sryland@clrport.com](mailto:sryland@clrport.com) or mail to 600 Port Road Alexandria, LA 71303, with your submission.

Should you have any questions, please contact Blake Cooper.
